

# FIDELITY BUSINESS ONLINE

---

Fidelity Business Online provides instant online access to your Fidelity business accounts including complete cash management services in a state-of-the-art environment available anywhere you have Internet access.

Whether you wish to check account balances, review individual transactions, send wire transfers or originate ACH transactions, Fidelity Business Online can turn your office PC into a fully featured treasury management workstation. And since it is web-based, there is no additional software for you to download or maintain.

Fidelity Business Online's comprehensive security allows you to provide multi-user access to authorized employees. Since you establish each user's view of account information, Fidelity Business Online can be used to enhance your own financial management process. In addition, you have the ability to maintain complete administrative control of your company's accounts and transactions with full approval and review.
